

# Essential New Guides for Humanitarian Workers

**ITDG**  
PUBLISHING

## Includes

- A brief first aid manual
- The 'before you go' checklist
- Good practice guidelines for managing stress

Features handy boxed checklists for quick reference

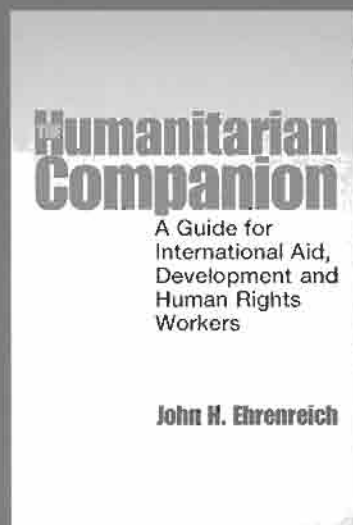

## The Humanitarian Companion John H. Ehrenreich

Planning to do humanitarian work at home or overseas? Don't leave without this essential one-stop resource. Packed with helpful advice to cover every aspect of humanitarian work, this is the most practical, comprehensive and easy-to-use field guide available, for all development and aid workers — and those who train them.

A concise and portable companion that will serve as a constant reference throughout your career as a humanitarian worker for advice on everything from health and personal safety and security, to managing stress and coping with the trauma of others, to dealing with ethical and moral dilemmas.

### Learn how to:

- Prepare fully — assess your abilities, your skills, and your potential liabilities
- Ensure that you're an efficient decision maker in the field, and an effective member of the team
- Maximise your positive impact on the people you're there to help
- Equip yourself for a smooth and stress-free reconnection to family and friends when your assignment ends

Buying copies for your whole team or every trainee on your course? Call us now for special bulk copy discounts 01926 634501.

• £16.95 • US\$25.95 • €24.95 • Jan 2005

## Extreme Emergencies Anthea Sanyasi

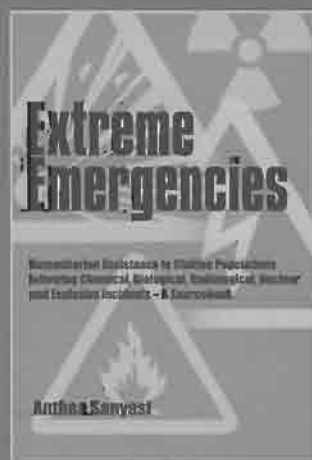

The possibility of a chemical, biological, radiological or enhanced explosive (CBRNE) disaster has never been greater. Learn now how to prepare and respond to such events with *Extreme Emergencies*: the first comprehensive and detailed sourcebook for humanitarian organizations in this critical area.

Researched by staff from UK medical relief agency Merlin, the book draws on expertise from key agencies including Merlin, Oxfam, Save the Children, British Red Cross Society, MSF Holland, WHO, and Health Protection Agency, as well as military experts. *Extreme Emergencies* is written for staff of humanitarian organizations working in middle and low-income countries.

Get the most up-to-date advice and guidance on:

- emergency planning strategy and safety and tactical management issues
- the range of hazards, their characteristics, clinical effects and required treatment
- equipment, training issues, and details of relevant support organizations

• Paperback • 1-85339-602-8 • 240pp  
• £24.95 • US\$44.95 • €35.95 • Feb 2005

## Engineering in Emergencies: A Practical Guide for Relief Workers

SECOND EDITION Jan Davis and Robert Lambert

All the critical information you need to implement an effective response in the aftermath of an emergency, covering both technical topics such as water and sanitation as well as managerial skills and personal effectiveness.

The second edition of this best-selling manual, extensively revised and updated and based on feedback from users in the field, now includes:

- two brand new chapters on personal security and telecommunications
- all the most recent developments in humanitarian relief practice
- experience from cooler climates and European emergencies
- new appendices of useful websites and the Sphere minimum standards
- new and revised illustrations, tables and checklists throughout.

• **Paperback** • 1-85339-521-8 • 736pp • £26.95 • US\$49.95 • €39.95

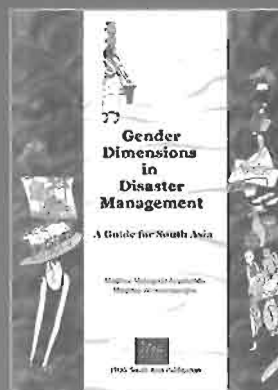

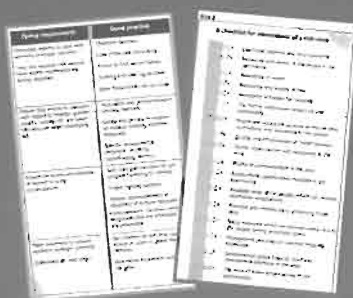

• **PVC cover with CD-ROM** • 1-85339-545-5 • £69.95 • US\$125.00 • €94.95

## Gender Dimensions in Disaster Management: A Guide for South Asia

Madhavi Malalgoda Ariyabandu and Maithree Wickramasinghe

The first book to look at gender issues in disasters in the context of South Asia, where disasters have a crucial impact on the development process.

Improve your development project's chance of success with these new guidelines – discover how to take into account the specific capacities and vulnerabilities of men and of women in disaster situations.

• **Paperback** • 1-85339-603-6 • 176pp • £12.95 • US\$23.95 • €19.95
